This month's ingredients

Sakura shrimp

From Shizuoka Prefecture

Suruga Bay, the only place in Japan where these shrimp are caught. In recent years, the amount of shrimp caught has decreased, and so fishing is protected by restricting periods and areas so that they can be caught every year. Don't miss this opportunity to try this valuable delicacy!

Spring cabbage

From Chiba Prefecture

Cabbage grown in Choshi is characterized by its sweet, fresh, and rich taste, owing to the rich mineral content of the soil with a location near the sea. The producer we chose this time grows "cabbage that is sweet to the core." Don't miss this opportunity to enjoy the freshness, sweetness, and texture that only spring harvests offer!
